

Internet Explorer users may have security certificate errors while attempting to connect to the payment gateway.

Please follow the steps below to correct the matter.

- a. On your menu bar, click on tools and then on options.
- b. Select Internet Options from the list.
- c. Click on the Advanced Tab
- d. Scroll down to Security Options and uncheck “Use SSL 2.0”

You should now be able to make your payment; alternatively you will need to use a different web browser.
